

TELESCOPIC ACCESS BRIDGE

RENTAL OFFSHORE WIND M-SERIES L1-SERIES

Rental Gangways Offshore Wind

SMST provides a wide range of modular and height adjustable Telescopic Access Bridges (TAB). The 3D motion compensated gangways ensure safe and efficient transfer of personnel and cargo in every offshore (floating) wind park around the globe. The M and L1-Series are available for rent.

Rental Range

SERIES	M	L1
Bridge length	13-21m	15-25m
Bridge width	600mm	900mm
3D Lifting capacity	300kg	1000kg

Gangway Modular Setup

Key Assets

Gangway (TAB)

- ✓ Modular setup & proven technology
- ✓ Unparalleled motion compensation performance
- ✓ High workability, up to Hs 4.5m
- ✓ With lightweight stacking modules or Height Adjustment System

- ✓ Cargo handling by 3D motion compensated winch below bridge tip (up to 1000kg)

- ✓ Minimized footprint
- ✓ Road transportable units
- ✓ Low transport & mobilization costs

Efficiency

- ✓ Highest level of energy efficiency
- ✓ Fast mobilization worldwide; in just 1 to 3 days
- ✓ Large & growing rental fleet
- ✓ Suitable for operations in multiple wind parks with different landing heights, or high tidal differences

Safety

- ✓ Continuous access
- ✓ Advanced training program for operating with own crew

TELESCOPIC ACCESS BRIDGE

RENTAL OFFSHORE WIND M-SERIES L1-SERIES

smartSERIES

The smartSERIES reflects SMST's vision to continuously develop products and technology that guarantee maximum benefits in various fields.

smartACTIONS

Provides data-driven decision making tools.

- ✔ Remote monitoring
- ✔ Workability reporting

smartENERGY

Minimizes systems' energy consumption.

- ✔ Energy storage
- ✔ Power balancing

smartTAB

Ensures safe and efficient people and cargo logistics.

- ✔ Integrated system controls
- ✔ Automation and simulation

About SMST

SMST designs and builds turnkey systems for the safe transfer of personnel and cargo for global offshore operations. SMST has the entire process in-house: from design to production, assembly and testing to worldwide installation, service & aftersales.

All SMST's products have a modular-based design philosophy. The complete range comprises modular components that turn into systems that fit all project-specific requirements.
